Kelly Reports Fourth-Quarter and Full-Year 2025 Earnings

TROY, Mich. (February 12, 2026) – Kelly (Nasdaq: KELYA, KELYB), a leading specialty talent solutions provider, today announced fourth-quarter and full-year 2025 earnings.

- **Full-year revenue of \$4.3 billion, down 1.9% as reported and flat excluding previously disclosed acquisitions and the discrete impacts**
- **Full-year free cash flow of \$114 million, a sixfold increase versus the prior year. Completed \$10 million of Class A share repurchases during Q4, with a total of \$158 million of capital deployed towards debt repayment, share repurchases and dividends for the year**
- **Q4 adjusted SG&A decline of 11.1% reflects momentum on structural and demand-driven expense optimization initiatives, including acquisition integration and technology modernization efforts**
- **Q4 operating loss of \$0.7 million; \$8.3 million of operating earnings on an adjusted basis**
- **Q4 adjusted EBITDA of \$21.0 million; adjusted EBITDA margin of 2.0%, full-year adjusted EBITDA margin of 2.6%**
- **Company expects to return to organic revenue growth and adjusted EBITDA margin expansion in the second half of 2026**

Chris Layden, chief executive officer, said, “In the fourth quarter, we capitalized on positive trends in each of our segments and delivered results that reflect our progress on stabilizing Kelly’s performance. We also completed the first significant milestone in our technology modernization initiative, completing the consolidation of our SET acquisitions onto a unified, best-in-class platform that will soon be deployed across SET and the entire enterprise. We begin 2026 with clear organic growth and efficiency drivers which we expect will position Kelly to deliver year-over-year growth and margin expansion in the second half of the year.”

Financial Results for the 13-week period ended December 28, 2025:

Revenue of \$1.1 billion, a 11.9% decrease compared to the corresponding quarter of 2024, primarily driven by lower demand in our ETM and SET segments, partially offset by growth of 1.3% in the Education segment. Discrete impacts associated with reduced demand for U.S. federal government contractors and from three large commercial customers totaled approximately 8%, resulting in an underlying revenue decline of approximately 3.9%.

Operating loss of \$0.7 million compared to a loss of \$56.7 million reported in the fourth quarter of 2024. Adjusted earnings¹ were \$8.3 million in the fourth quarter of 2025 and \$29.2 million in the fourth quarter of 2024. Adjusted EBITDA¹ of \$21.0 million, down 51.7% versus the prior year period. Adjusted EBITDA¹ margin of 2.0%, a decrease of 170 bps driven primarily by near-term gross margin pressure in SET and ETM due primarily to employee-related costs and business mix.

Income tax expense of \$126.2 million, compared to income tax benefit of \$23.8 million reported in the fourth quarter of 2024. Current quarter expense reflects a \$127.9 million valuation allowance increase related to work opportunity credit and foreign tax credit carryforwards due to cumulative losses in recent years including goodwill impairments. On an adjusted basis¹, income tax expense of \$0.8 million, compared to income tax benefit of \$2.1 million in the fourth quarter of 2024.

Loss per share was \$3.69 compared to a loss per share of \$0.90 in the fourth quarter of 2024. On an adjusted basis¹, earnings per share were \$0.16 compared to \$0.79 per share in the corresponding quarter of 2024.

Financial results for the 52-week period ended December 28, 2025:

Revenue of \$4.3 billion, down 1.9% compared to the prior year. Excluding the impact of the May 2024 acquisition of MRP, revenue was down 6.2% on an organic basis driven primarily by a 6% decline due to discrete impacts associated with reduced demand for U.S. federal government contractors and from three large commercial customers. The Education segment grew 3.9% for the full year.

Operating loss of \$69.8 million compared to a loss of \$15.1 million reported in 2024; both years reflect non-cash impairment charges of \$102.0 million and \$86.3 million, respectively. Adjusted earnings¹ were \$59.3 million in 2025 and \$92.1 million in 2024. Adjusted EBITDA¹ of \$109.4 million, down 23.8% versus the prior year. Adjusted EBITDA¹ margin of 2.6%, a decrease of 70 bps driven primarily by near-term gross margin pressure in SET and ETM along with revenue trends and timing of related expense management actions.

Income tax expense of \$175.3 million, compared to income tax benefit of \$21.3 million in 2024. The 2025 expense reflects a \$197.6 million valuation allowance established against our work opportunity credit and foreign tax credit carryforwards due to cumulative losses in recent years including goodwill impairments. On an adjusted basis¹, income tax expense was \$4.2 million, compared to income tax expense of \$5.5 million in the corresponding period of 2024.

Loss per share was \$7.24 compared to a loss per share of \$0.02 in 2024. On an adjusted basis¹, earnings per share were \$1.26 in 2025 compared to \$2.26 per share in 2024.

¹ Adjusted measures represent non-GAAP financial measures. Refer to our reconciliation of non-GAAP financial measures to the most closely related GAAP measure included in this document.

Financial Outlook For Fiscal 2026:

The Company's 2026 financial outlook assumes no material change in the macroeconomic or industry dynamics relative to current trends, and is as follows:

- **First Quarter of 2026** – Expect Q1 to look similar to Q4, with revenue declining between 11% to 13% year-over-year, or between 3% to 5% on an underlying basis excluding discrete customer impacts, and adjusted EBITDA margin of approximately 1.5%, which includes the impact of annual payroll tax resets.
- **Remainder of Year** – Assuming no new material impacts, expect relative improvement in year-over-year performance each successive quarter for both revenue and adjusted EBITDA margin resulting in modest year-over-year revenue growth and measurable adjusted EBITDA margin expansion in the second half of the year.

Quarterly Cash Dividend and Share Repurchase:

Kelly also reported that on February 10, its board of directors declared a dividend of \$0.075 per share. The dividend is payable on March 11, 2026, to stockholders of record as of the close of business on February 25, 2026. In addition, Kelly executed share repurchases of \$10.0 million during the fourth quarter of 2025 as part of the previously announced, board approved share repurchase program.

In conjunction with its earnings release, Kelly has published a financial presentation and will host a live webcast of a conference call with financial analysts at 9 a.m. ET on February 12 to review the results from the quarter and answer questions. The presentation and a link to the live webcast will be accessible through the Company's public website on the Investor Relations page under Events & Presentations. The webcast will be recorded, and a replay will be available within one hour of completion of the event through the same link as the live webcast.

Forward-Looking Statements

This release contains statements that are forward looking in nature and, accordingly, are subject to risks and uncertainties. These statements are made under the "safe harbor" provisions of the U.S. Private Securities Litigation Reform Act of 1995. Statements that are not historical facts, including statements about Kelly's financial expectations, are forward-looking statements. Factors that could cause actual results to differ materially from those contained in this release include, but are not limited to, (i) changing market and economic conditions, (ii) disruption in the labor market and weakened demand for human capital resulting from technological advances, loss of large corporate customers and government contractor requirements, (iii)

the impact of laws and regulations (including federal, state and international tax laws), (iv) unexpected changes in claim trends on workers' compensation, unemployment, disability and medical benefit plans, (v) litigation and other legal liabilities (including tax liabilities) in excess of our estimates, (vi) our ability to achieve our business's anticipated growth strategies, (vii) our future business development, results of operations and financial condition, (viii) damage to our brands, (ix) dependency on third parties for the execution of critical functions, (x) conducting business in foreign countries, including foreign currency fluctuations, (xi) availability of temporary workers with appropriate skills required by customers, (xii) cyberattacks or other breaches of network or information technology security, and (xiii) other risks, uncertainties and factors discussed in this release and in the Company's filings with the Securities and Exchange Commission. In some cases, forward-looking statements can be identified by words or phrases such as "may," "will," "expect," "anticipate," "target," "aim," "estimate," "intend," "plan," "believe," "potential," "continue," "is/are likely to" or other similar expressions. All information provided in this press release is as of the date of this press release and we undertake no duty to update any forward-looking statement to conform the statement to actual results or changes in the Company's expectations.

KELLY SERVICES, INC. AND SUBSIDIARIES
RECONCILIATION OF NON-GAAP MEASURES
(UNAUDITED)

Management uses Adjusted EBITDA (adjusted earnings before interest, taxes, depreciation and amortization) and Adjusted EBITDA Margin (Adjusted EBITDA divided by revenue from services) which Management believes is useful to compare operating performance compared to prior periods and uses it in conjunction with GAAP measures to assess performance. Our calculation of Adjusted EBITDA may not be consistent with similarly titled measures of other companies and should be used in conjunction with GAAP measurements. Management also uses year-to-date free cash flow (operating cash flows less capital expenditures) to indicate the change in cash balances arising from operating activities, net of working capital needs and expenditures on fixed assets.

Management believes that the non-GAAP (U.S. Generally Accepted Accounting Principles) information excluding items such as goodwill impairment charges, valuation allowances, integration and realignment costs, transaction costs, executive transition costs, gains and losses on the sale of our EMEA staffing operations and other assets, gain on forward contracts, gain on equity securities, restructuring charges and asset impairment charges are useful to understand the Company's fiscal 2025 financial performance and increases comparability. Specifically, Management believes that removing the impact of these items allows for a meaningful comparison of current period operating performance with the operating results of prior periods. Management also believes that such measures are used by those analyzing performance of companies in the staffing industry to compare current performance to prior periods and to assess future performance.

These non-GAAP measures may have limitations as analytical tools because they exclude items which can have a material impact on cash flow and earnings per share. As a result, Management considers these measures, along with reported results, when it reviews and evaluates the Company's financial performance. Management believes that these measures provide greater transparency to investors and provide insight into how Management is evaluating the Company's financial performance. Non-GAAP measures should not be considered a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP.

- (1) Represents total company depreciation and amortization of intangibles, including the amortization of hosted software.
- (2) Goodwill impairment charge in 2025 was driven by reduced demand, integration of MRP and Softworld acquisitions, and realignment of reporting units in the SET segment. Goodwill impairment charge in 2024 was driven by changes in market conditions and the result of the Company's annual impairment test related to Softworld.
- (3) Valuation allowance on deferred tax assets in 2025 was established against a portion of our work opportunity credit carryforwards due to cumulative losses in recent years.
- (4) Integration, realignment and restructuring charges in the fourth quarter and year-to-date 2025 and 2024 reflect various initiatives aimed at integrating MRP and other prior acquisitions, consolidating operating segments, and further aligning processes and technology across the Company. Included in total integration and realignment costs is \$0.4 million and \$0.9 million of accelerated amortization within depreciation and amortization for the fourth quarter and year-to-date 2025 periods, respectively. The costs incurred associated with these initiatives are summarized in the table below:

	Fourth Quarter		December Year-to-Date	
	2025	2024	2025	2024
Severance	\$ 3.6	\$ (0.3)	\$ 10.1	\$ 3.0
IT-related Charges	2.4	—	11.5	—
Fees and Other	2.4	3.9	7.1	13.1
Total integration and realignment costs	<u>\$ 8.4</u>	<u>\$ 3.6</u>	<u>\$ 28.7</u>	<u>\$ 16.1</u>

In addition to the initiatives mentioned above, Integration, realignment and restructuring charges in 2024 represent a continuation of the comprehensive transformation initiative that started in the second quarter of 2023 to further streamline the Company's operating model to enhance organizational efficiency and effectiveness. Included in fees and other for year-to-date 2024 was \$10.0 million of integration and realignment costs and \$3.1 million of transformation costs.

(5) Executive transition costs in 2025 and 2024 represent non-recurring expenses associated with our CEO transition in the third quarter of 2025 and CFO transition in the fourth quarter of 2024.

(6) Transaction costs in 2025 are primarily related to costs incurred directly related to the sale of the EMEA staffing operations and other projects, which includes employee termination costs and transition costs. Transaction costs in 2024 includes employee termination costs and transition costs related to the sale of the EMEA staffing operations, costs and adjustments related to the acquisition of MRP and an adjustment to the indemnification related to our former Brazil operations. Costs related to the sale of the EMEA staffing operations were \$3.1 million in the fourth quarter of 2024 and \$12.0 million for the year ended 2024. Transaction adjustments related to the acquisitions of MRP and CTC were a gain of \$2.7 million in the fourth quarter of 2024 reflecting a \$3.4 million write-off of the MRP earnout liability, net of transaction costs of \$0.7 million. Transaction costs related to the acquisitions were \$6.6 million for the year ended 2024, net of the \$3.4 million earnout liability write-off. In the fourth quarter of 2024, there was a \$0.7 million reduction in the indemnification liability related to the sale of our Brazil operations in 2020.

(7) Asset impairment charge in 2024 for certain right-of-use assets related to our leased headquarters facility reflects adjustments to how we are utilizing the building as part of our ongoing transformation efforts.

(8) Gain on equity securities in 2024 includes a \$0.6 million realized gain from the partial sale of our securities and a \$3.2 million unrealized gain from the mark-to-market adjustment on our remaining shares.

(9) (Gain) loss on sale of EMEA staffing operations represents the gains and losses in each period as a result of the sale in January 2024, including adjustments to the indemnification related to the sale.

(10) Gain on sale of assets represents the sale of a property in the fourth quarter of 2025 and the sale of Ayers Group in the second quarter of 2024.

(11) Gain on forward contract in 2024 represents the settlement of the foreign currency forward contract in January 2024 relating to the sale of our EMEA staffing operations.

Fourth-Quarter 2025 Takeaways

Revenue decline in the quarter reflects growth in more resilient markets and the Education segment, offset by discrete impacts in the ETM and SET segments

- Revenue down 11.9%, down 3.9%⁽¹⁾ underlying which excludes the discrete impacts of U.S. federal government in the SET and ETM segments and three large customers in ETM
- Underlying demand trends consistent with prior quarter for ETM and other areas

Profitability reflects revenue and gross profit pressure, partially offset by notable SG&A decreases

- Gross profit rate of 18.8%, down 150 bps primarily from increased employee-related costs
- SG&A down 8.7% (11.1%⁽²⁾ adjusted) reflecting significant progress on cost optimization efforts
- Q4 Adjusted EBITDA margin of 2.0%⁽²⁾, down 170 bps primarily reflecting the lower gross profit

Driving structural and volume-related expense optimizations

- Technology modernization initiative is on-track to reduce expenses associated with managing disparate and outdated systems and enable more rapid innovation within SET and ultimately across the enterprise
 - In Q4 2025, completed the first major phase of the technology transition, also executed an enterprise agreement with a major technology provider in support of these efforts
- Aligning resources with demand as the macroeconomic environment continues to evolve

Maintaining our focus on accelerating profitable growth

- Further enhancing go to market approach across the enterprise to strengthen large account management and expand new customer acquisition
- Capitalizing on organic growth drivers in each business and integrating legacy acquisitions to capture revenue and cost synergies

Fourth-Quarter 2025 Revenue and Gross Profit Mix

Revenue Mix⁽⁴⁾

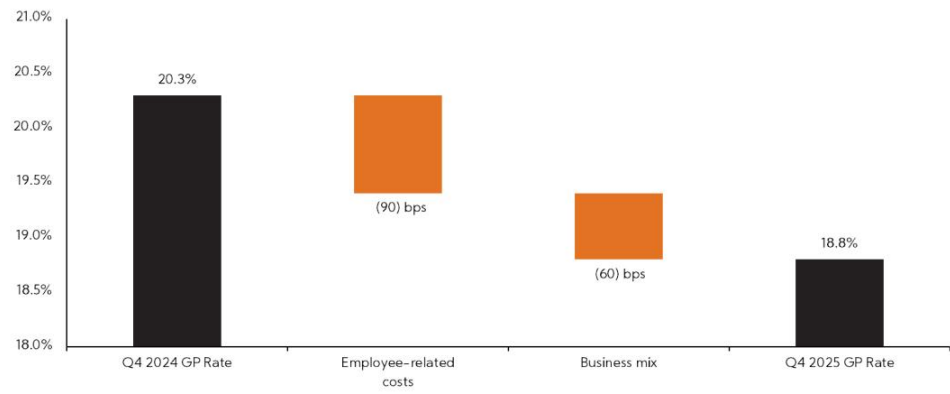

Gross Profit Mix⁽⁴⁾

Fourth-Quarter 2025 Gross Profit Rate

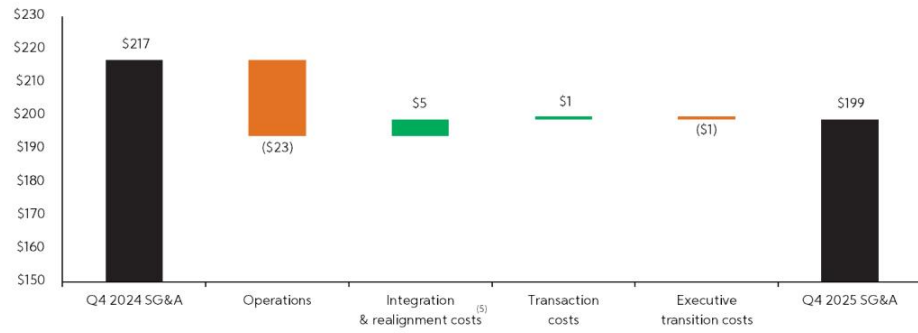

- GP rate decreased due to an increase in employee-related costs, and business mix changes primarily driven by growth in Education, which has a lower GP rate, and declines in higher gross margin outcome-based and staffing offerings

Fourth-Quarter 2025 SG&A

\$ in millions

- Expenses in Operations decreased as a result of management's efforts to drive structural efficiencies and align resource levels with volume
- Integration and realignment costs related to the integration of MRP and other prior acquisitions, consolidation of operating segments and aligning processes and technology across the Company increased as compared to prior year as we continue to execute on initiatives
- Transaction costs increased due to non-recurring favorable adjustment to our MRP earnout liability in the prior year
- Executive transition costs decreased due to non-recurring costs associated with our CFO transition in the prior year

2026 Outlook

Our 2026 Outlook assumes no material change in the macroeconomic or industry dynamics relative to current trends.

Through our ongoing focus on growth and efficiency, we are well prepared to navigate the evolving macroeconomic environment and capitalize when demand rebounds.

First Quarter of 2026 – *Consistent with Fourth Quarter of 2025*

- *Revenue* – expect total Company year-over-year revenue decline of 11% to 13%, or 3% to 5% on an underlying basis excluding discrete customer impacts
- *Adjusted EBITDA margin* – expect approximately 1.5%, which includes the impact of annual payroll tax resets.

Remainder of Year – Assuming no new material impacts, expect relative improvement in year-over-year performance each successive quarter for both revenue and adjusted EBITDA margin resulting in modest year-over-year revenue growth and measurable adjusted EBITDA margin expansion in the second half of the year.
