Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of the
Kelly Retirement Plus Plan:

In our opinion, the accompanying statements of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of Kelly Retirement Plus (the "Plan") at December 31, 2005 and 2004, and the changes in net assets available for benefits for the year ended December 31, 2005 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

1. Plan Description

The following description of Kelly Retirement Plus (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General
The Plan provides benefits to eligible employees according to the provisions of the Plan Document. All eligible employees, as defined by the Plan, are eligible to participate upon hire and attainment of age 18. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Contributions
Participants may contribute a percentage of eligible earnings, as defined in the Plan, of no less than 2% and no more than 50%, up to the current IRS maximums ($14,000 in 2005) to the Plan each year. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions not to exceed $4,000 in 2005. The employer contribution consists of two parts: Employer Discretionary Contributions, under which Kelly Services, Inc. (the “Company”) may make a discretionary contribution on behalf of all participants in an amount to be determined by the Company. The contribution to the Plan for 2005 represented 2.0% of participants’ eligible wages for the year and totaled $2,903. Employer Matching Contributions equal $.50 per dollar of their contribution up to 4% of eligible pay. The employer contributions are allocated in the same manner as the participant contributions.

Participant accounts
Each participant’s account is credited with the participant’s contribution, the Company’s matching contribution, an allocation of the Company’s discretionary contribution, an allocation of investment earnings and an allocation of administrative expenses. Earnings are allocated by fund based on the ratio of a participant’s account invested in a particular fund to all participants’ investments in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Plan administration
The Plan is administered by a committee appointed by the Board of Directors of the Company. This committee is composed of the Chief Executive Officer, the Executive Vice President and Chief Financial Officer, the Executive Vice President and Chief Administrative Officer and the Senior Vice President, General Council and Corporate Secretary and serves at the pleasure of the Board.

Investment options
All contributions are invested by JPMorgan Trust Company, N.A. (the “Trustee”) as directed by the participant among any of the investment options offered by the Plan.

1. Plan Description (continued)

Vesting and Benefits
Participants become fully vested in Employer Discretionary Contributions upon attainment of age sixty-five or completion of five years of service, whichever occurs first. Participants become fully vested in Employer Matching Contributions upon attainment of age sixty-five or completion of three years of service, whichever comes first. The first year of service begins at the later of age 18 or date of hire. Participant contributions are 100% vested immediately.

The value of the vested portion of participants' accounts is payable to the participant upon retirement, total and permanent disability, death or termination of employment in a lump-sum distribution. If the vested portion of a participant's account exceeds one thousand dollars (or such other amount to be prescribed in Treasury regulations), the participant may defer receipt of the distribution until any time prior to or upon attaining age 70-1/2. Vested accounts with balances of one thousand dollars or less are paid in an immediate lump-sum distribution.

Participant forfeitures
Pursuant to the Plan agreement, participant forfeitures can be used by the Plan to (1) restore the participant's account in the event of rehire or (2) reduce the Employer Discretionary Contribution or Employer Matching Contribution. The Plan administrator offset the Employer Discretionary Contribution with forfeitures aggregating $307 for the year ended December 31, 2005.

Participant Loans
The Plan, as currently designed, does not allow participants to borrow from their accounts.

2. Summary of Significant Accounting Principles and Practices

Basis of accounting and use of estimates
The financial statements of the Plan have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition
Plan investments are stated at fair value as of the last day of the Plan year. The Plan's mutual fund investments are valued based on quoted market prices. The JPMorgan Stable Asset Income Fund and the Kelly Stock Fund are valued at the unit price, as determined by the Trustee, which represents the fair value of the underlying investments. The Plan presents in the statement of changes in net assets, the net appreciation in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

2. Summary of Significant Accounting Principles and Practices (continued)

Contributions
Participant contributions are recorded in the period during which the Company makes payroll deductions from the Plan participants' earnings; Employer Matching Contributions are recorded in the same period. Employer Discretionary Contributions are recorded in the period during which they were earned. Administrative expenses incurred shall be paid by the Plan to the extent not paid by the Company.

Payment of benefits
Benefits are recorded when paid.

Risks and uncertainties
The Plan provides for various investment options in mutual funds that hold stocks, bonds, fixed income securities and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

6. Federal Income Tax Status

The Internal Revenue Service ("IRS") has determined that the Plan, as amended and restated effective February 18, 2002, was in compliance with the applicable requirements of the Internal Revenue Code (the "Code"). The Plan has been amended subsequent to February 18, 2002. Management believes that the Plan as amended complies with relevant requirements and that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

7. Party-in-Interest Transactions

A portion of the Plan's investments is held in mutual funds and collective funds sponsored by the Trustee and all investment transactions are conducted through the Trustee. All transactions with the Trustee are considered party-in-interest transactions; however, these transactions are not considered prohibited transactions under ERISA.

The Company is also a party-in-interest. Certain administrative expenses of the Plan, including salaries, are paid by the Company and qualify as party-in-interest transactions. The Plan also invests in common stock of the Company.
